- 6556: Frame and frame color supported on field forms "avrundet", ellipse and circle
- 5973: Rulers added in page preview, left/right side, and top
- 6631: Include Rolltalk Pictures in Rolltalk Designer for Print
- 2446: Adjustment offsets supported when printing 2-sided
- 6385: Added new Norwegian money to Rolltalk Pictures

Bugs fixed

- 5983: Multibox battery indicator values adjusted
- 6414: PODD 60 - Change word doesn't work in editor 2 (smalltalk)
- 6494: Media player command (bildesekvens) doesn't show pictures
- 6464: Picture text missing from Find Picture results
- 6436: Scanning stuck and unable to continue without assistance
- 5958: Issues with shortcut included in .rdzip
- 4661: Skype Chat does not work - remove from Page library – obsolete feature
- 6527: Stretched images don't cover 100% of the field
- 6619: Search result doesn't show entire text from fields in own program
- 1528: Fuzzy drawing: Changing default printer while running PODD maximized offsets field areas
- 6555: Wrong text position in editor (PODD)
- 6573: RDfP: Set rows and columns on free pages
- 6525: PageLibrary: Newly added contact doesn't show up automatically.
- 6645: Video starts playing after slideshow completes – fixed video parts, start and stop
- 6549: "Save as" in PODD Print does not create Desktop shortcut
- 6646: Some symbols/characters are spoken literally (apostrophe etc)
- 6763: Printer capabilities (e.g. duplex support) not updated if default printer changed in runtime
- 6891: Symbols changes when saved to pdf and on print

6923: Issue with picture aspect ratio on 4:3 monitors
